Dear Mr Burke.

Item 29 of the CCG Strategy Plan refers to a business case for reducing community beds. Please may we have a copy by Friday 11 April.

In addition we would be grateful if we could be provided with answers to the following questions:

- Is the quality of service offered by the Community Treatment Team and the Intensive Rehabilitation Service at home the same standard as that that would be offered at hospital?
- What percentage of patients who are initially treated at home, are then taken into hospital?
- Is the rate of recovery of patients treated at home the same as that in hospital?

- How are the staff in the two teams transported to patients who are being treated at home?
- How soon is a patient treated at home once they are referred through the GP?

Again, it would be appreciated if these answers were provided by Friday 11 April.

Yours sincerely,

BERYL THORNTON
