Dear Chairs

Many thanks for your letter dated 15 March requesting a meeting with me to discuss local NHS services.

Your letter covers a range of issues including local A&E and maternity services, hospital management and staff morale, the Health for north east London plan and decisions taken by clinical commissioning groups in other parts of the country.

I hope you will appreciate that while the holistic care of my patients is my absolute priority, many of these issues lay outside my remit as a local GP and member of the local CCG.

For that reason I have passed your letter on to relevant colleagues at the CCG who will be better placed to give you an overall response.

I would like to reassure you, however, that the GP members of Redbridge CCG are committed to continuing to commission health services that best meet the needs of local people. We are also working increasingly closely with our health and social care partners both in Redbridge and beyond to not only meet the current need, but also to plan effectively for the future and ensure the best outcomes for our patients.

Yours sincerely

Dr Sarah Heyes
Clinical Director of Wanstead and Woodford
