Members of Regulatory Committee

Dear Councillor

Application 2393/09: 49 Leicester Road

This short note relates to the above application which will be considered at the Regulatory Committee meeting on 18 January 2010.

It may not be clear from the papers before the Committee that The Wanstead Society's position on the proposed development has moved somewhat. As you will see from the attached representation to the Redbridge Planning Team, the Society commends the progress which has been made in the development of the plans – but would like to see some further progress in the interests of the Wanstead Grove conservation area.

Yours sincerely
