Dear Mr Goate,

Planning application ref: 4707/15 regarding the replacement floodlighting column at Eton Manor Rugby Club

In view of the great height of the replacement column, we feel that it ought to be placed at the most further point from the houses on Preston Drive, rather than on the corner which is closest to them.

Distance is a key factor when considering the erection of a 24 metre column: if the column were to be placed at the furthest corner then the visual impact would be lessened by the background of the Roding Valley Park and the M11.

Looking at the planned construction of the column it has no aesthetic value – indeed its appearance will be detrimental to the ambience atmosphere of the area which neighbours the Wanstead Grove Conservation Area.

Yours sincerely,

Helen Zammett  
Chair
