

Dear Mr Dowers,

Thank you for your email and attached letter dated the 25th September 2017 concerning the above matter.

As soon as we published the results of the Wanstead Parking Consultation on line, we started to get requests from roads that were not part of the proposed scheme to be included, so we took the decision to include a statement in the consultation result letter offering residents/businesses the opportunity to be included via a petition.

Once again, we believe this offer shows that the authority is listening to all residents of the area and adapting the scheme accordingly.

I would appreciate it if you could pass this response onto the other organisations you have Cc'd into your letter.

Regards

Matthew E Gray
