Mobile phones, if you lose or have your Mobile phone stolen then the most important thing you should have is your IMEI number. Every phone has a unique 15 digit code, this can be found on the box when you buy the phone, it might be on the battery or where you place the sim card. But the easiest way is to type in \*#06#

Register your phone at [www.immobilise.com](http://www.immobilise.com)
