Scam call - caller states you have won £50k on the lottery. The caller knew the victims full address etc. The caller said in order to claim the lottery money he needs to pay £300 and was willing to take the victim to the bank if he does not have the funds at home. Think about setting up additional security at the bank for elderly relatives. Make sure that they do not keep large sums of money at home. Remove them from any contact list phone directory, open electoral role etc (this has to be done yearly)
Please remember that the bank, police will never ask you for your bank details.

Scam a white Male around 16-18 years of age, Tall and slim wearing black football strip with yellow trim holding a football is going door to door asking for money for his football team. He has most recently been seen around Pelham and Pultney Road at 1pm on Friday

Long term crime prevention to think about when getting work done on your home. Building a porch, gives you a second line on defence, and prevents fishing from the letter box. Locking posts on your drive way will help prevent vehicles being stolen by keyless entry.. High side gate flush with the front of your home to prevent easy access to the back of your home.

Short term, Alarms including outbuildings. Trellis on the side gate, fence line to give height and put lights, radios on timer switches.
Outside letterboxes are more at risk from ID theft

New series of the Met starts 24th May on BBC1 9PM
